### SOFT SKILLS

- Attention to detail, multitasking
- Self-motivated, organized, and methodical
- Constant desire to learn new technologies and testing techniques
- Ability to set priorities
- Team player

## Manual QA Engineer

### SUMMARY

I like to use digitization in life and at work, because it makes work clear, transparent, efficient, and life easier and more comfortable.

That's why I want to become part of a professional team that does just that – develops and releases products on the market that are designed to make people's lives and work easier.

### HARD SKILLS

- Knowledge of the basic theory and process of testing, test design techniques
- Understanding client-server architecture
- Experience in preparing test documentation (Test Cases, Checklists, Bug Reports)
- Knowledge of the SDLC\STLC
- Basic knowledge of HTML, CSS, JavaScript
- Basic experience with SQL
- Basic experience with REST API testing, JSON, XML
- Understanding Agile frameworks (Scrum, Kanban)
- Basic tools: Postman, Swagger, Charles, Jira, GIT, DB Browser (SQLite), DevTools
- English – B1
